THE UK'S LEADING SPECIALIST SUPPLIER OF STAINLESS STEEL FASTENERS

Apex Stainless Fasteners was established in 1991 and is now one of Europe's leading specialist suppliers of Stainless Steel Fasteners. We have a worldwide reputation for service, an extensive and comprehensive stock range, along with competitive pricing.

APEX IS 100% FOCUSED ON CUSTOMER CARE

With one of Europe's most experienced, dedicated and efficient sales teams, the Company offers a prompt response to all customer enquiries. We provide the best service possible to ensure customer satisfaction.

AT THE FOREFRONT OF DEVELOPMENT

Through a strategy of selective staff recruitment together with comprehensive training, plus the introduction of fully computerised systems, a strong base has been established which facilitates on-going development and expansion.

THE MAJOR UK SOURCE OF
STAINLESS STEEL FASTENERS WITH

OVER 4,000

TONS

OF INVENTORY

A2 (304) & A4 (316) GRADE STAINLESS STEEL FASTENERS

Provided in metric, unified and imperial thread forms, including non-standard products and sizes.

"High quality products, top tier service. Professional in every respect."

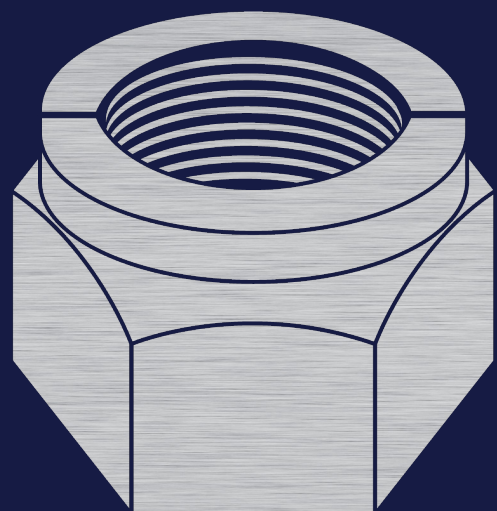

- Apex Customer

ALL PROCESSES, SYSTEMS AND
PROCEDURES ARE

ISO9001
COMPLIANT
LRQA APPROVED

For both in-house manufacturing
and distribution

WE MANUFACTURE THE **AEROTIGHT® NUT** IN-HOUSE

The Company incorporates an in-house manufacturing facility geared to the production of Aerotight® all metal stainless steel self-locking nuts and many other special turned parts also in stainless steel, inclusive of customer drawings or specifications.

STAINLESS STEEL QUALITY ASSURANCE

Quality Assured

The Organisation constantly strives to ensure that the products supplied are of the highest quality and that they are produced 100% compliant with International Standards, where applicable.

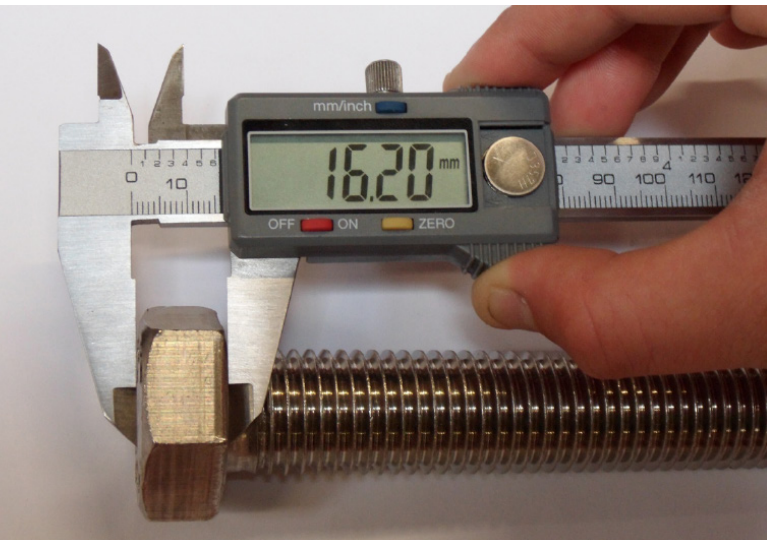

All products are stringently checked through Goods-In upon arrival. The goods are boxed in clearly marked packaging with Relevant Standards, Description, Grade, Lot and Heat Numbers. They are also batched so that contents can easily be identified and traced back to source.

As a result the Company is able to provide Batch Traceability, Certificates of Conformity and Material Certification for the products on request, such that customers can be assured of receiving products fully fit for purpose.

Apex Stainless Fasteners' Manufacturing Division utilises high quality raw material of European origin, with full mechanical and chemical certification.

All processes in house are fully checked through rigorous inspection and testing, with a final approval inspection on completion, thereby ensuring that all Apex manufactured parts are Quality Assured and manufactured to a high standard.

Quality Assurance of our products is crucial, but our Quality Management does not simply end there. The organisation strives continually to ensure that it provides the very best communication and delivery services to customers with Right First Time as the prime objective.

APEX'S CERTIFICATE OF APPROVAL

Since 1995, Apex Stainless Fasteners Ltd has been approved by Lloyd's Registered Quality Assurance. LRQA have certified that the Quality Management System complies with the ISO 9001 standards of quality assurance, and is applicable throughout all Company warehouse and manufacturing sites.

apex
STAINLESS FASTENERS

IN-HOUSE MANUFACTURING DIVISION

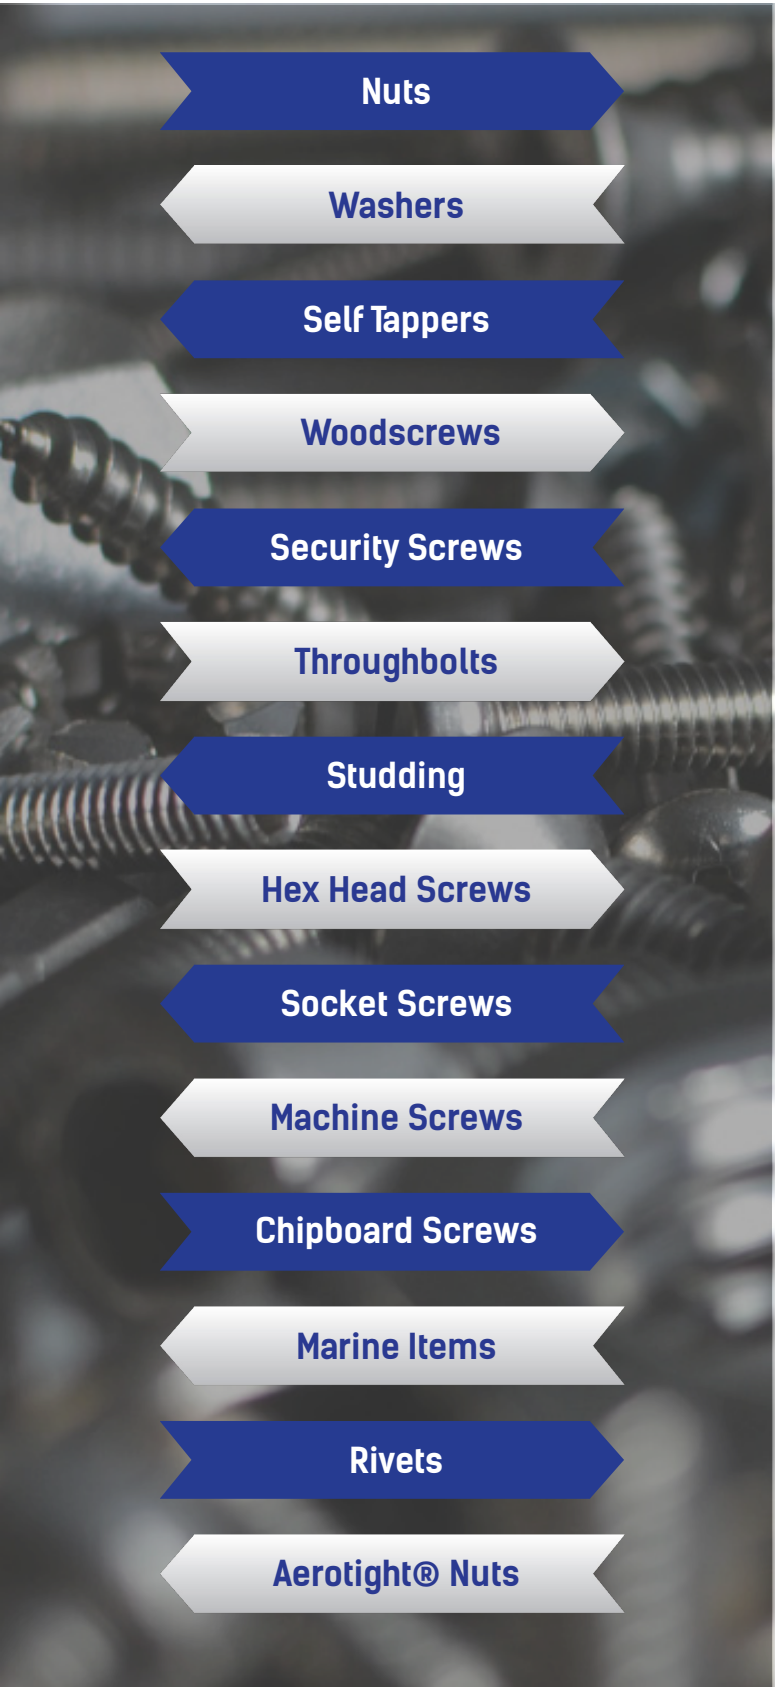

Apex Stainless Fasteners incorporates an in-house Manufacturing Division producing specialist Stainless Steel products, including Aerotight® Nuts, Hexagon Rivet Bushes, Allthreads and turned-parts to drawings.

The Stainless Steel raw materials used in Aerotight Nuts® are sourced exclusively from European mills.

The Manufacturing Division is also able to produce a range of items to customers' drawings and specifications. Below are a selection of the items manufactured.

Special Turned Parts can be produced up to 1 ¾ inches (45mm) external diameter.

PRODUCTS AND SERVICES

Apex Stainless provides a wide range of Stainless Steel Fasteners in grades A2 (304) and A4 (316) in metric, unified and imperial thread forms.

The stock range covers in excess of 20,000 items ensuring that all customer requirements can be satisfied. Apex Stainless also offers a wide range of different sized cut-length Allthreads from stock.

All Stainless Steel Fasteners supplied are manufactured in accordance with Relevant International Standards such as DIN, ISO, ANSI or BS, providing assured quality with processes, systems and procedures ISO9001 LRQA approved.

Special Products

Non-standard Stainless Steel Fasteners are supplied to specific customer requirements or drawings, complimenting a complete range of environmentally friendly corrosion resistant standard products.

The prompt supply of non-standard parts is facilitated through in-house and associated manufacturing works. Services such as stay-blackening or plating on certain products are also provided together with the cutting, adaption or threading of products to satisfy individual customers' needs.

SHIPPING AND PACKAGING

The Company have premises strategically located throughout the United Kingdom which ensures a prompt and reliable nationwide and international delivery service. This includes a next day delivery service for customers in the UK, together with 'same day' shipment on Export orders when specified.

Within the UK, Apex provides various delivery options for all 'ex-stock' items including as the norm a next-day delivery package, or by arrangement early a.m. services. Exports can be despatched within 24 hours of order. All shipments are securely packaged and clearly labelled with Full Carrier Traceability.

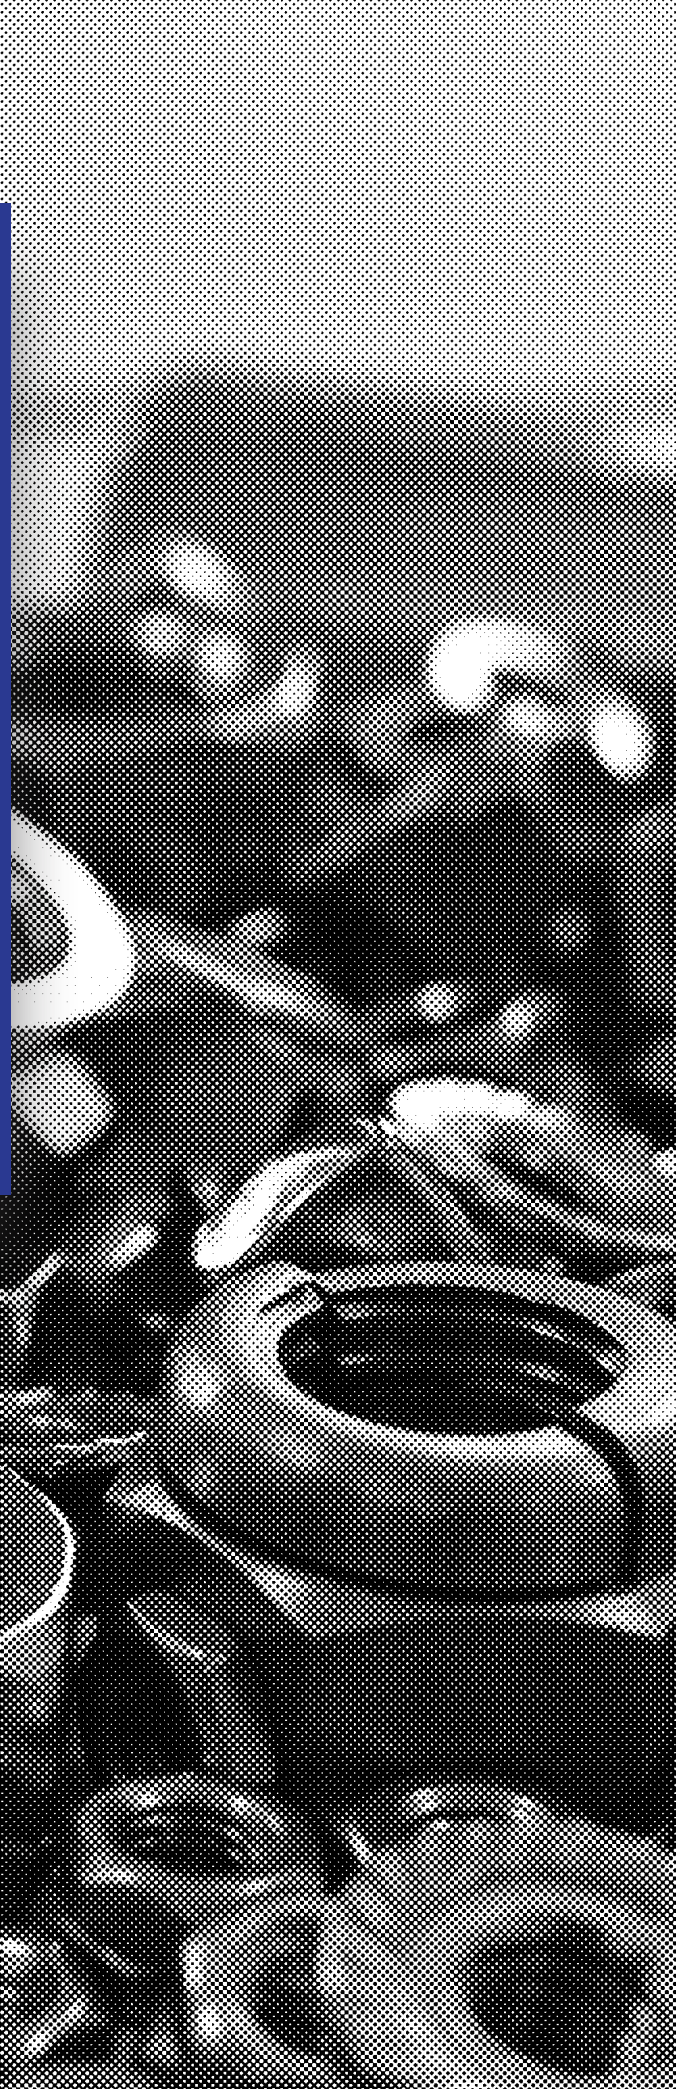

For a schedule of small order shipping and packaging costs applicable within the UK and overseas please contact our sales team.

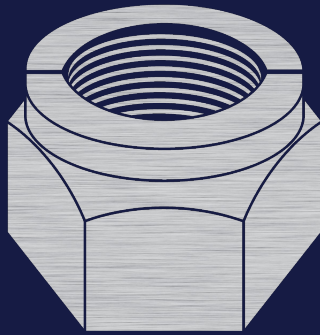

NUTS

Apex prides itself on its comprehensive range of Stainless Steel Fasteners, offering an extensive and diversified product portfolio of Stainless Steel Nuts in grades A2, A4 and A4-80 and in sizes from a micro M1.2 through to M52 diameter. Also available on certain Nut Categories, fine pitch or left-hand thread.

In addition is a wide array of different types of Hexagon Nuts, Connector Nuts, Knurled Thumb Nuts, Square Nuts and Wing Nuts, Apex also offer a range of All Metal Self-Locking Nuts including the world renowned Aerotight® Nut which is manufactured in-house.
